

## Here are some ideas to get you started. How many more can you come up with?

1. Turn off the TV and take a walk around the block with the family every evening after dinner.
2. Walk to the mailbox, post office, store or bank whenever possible.
3. Push a stroller or pull a wagon. Your children will love it.
4. Turn on the radio while you clean – and dance around! It can be both fun and aerobic.
5. Instead of using the remote control, pick a week when everyone must get up to change the TV station.
6. Take the stairs at work. Try it two at a time.
7. At home, go up and down the stairs 10 times in the morning and 10 times at night.
8. Wash and wax your car by hand.
9. Have “walking meetings” with business colleagues.
10. Jog in place while watching TV.
11. Wash windows, switching hands every other window.
12. When you take the kids to the park, hop on swings and pump with your legs.
13. Limit screen time and maximize outdoor time.
14. Rake rather than using a leaf blower. Afterward, jump in the pile!
15. Laugh a lot. You’ll feel better – and it has great health benefits!
16. Park farther away in the lot.
17. Walk the dog once a day. You’ll both feel better!
18. Do 10 jumping jacks as soon as your alarm goes off in the morning. Stretch for 5 minutes first.
19. Next, do 10 push-ups!
20. Skip rope for 5 minutes a day. Do it during your favorite TV show, and see how much you can improve throughout the season.
21. Take a walk after you take out the garbage. (Hey, you’re outside anyway, right?)

# 99 EASY WAYS TO Better Health

Even small daily choices  
can help you feel better  
and live healthier.

## Simple steps lead to better health.

If you go to the gym daily and spend hours a week running on a treadmill, you’re probably pretty fit already. If you don’t do those things, take heart. You can still improve your fitness, enjoy better health and extend your life by adding a few simple activities into your day. Did you know that vacuuming is a great upper body workout? Or that you can raise your heart rate by parking your car in the last row at the mall?

Did you know that for the average 150-pound person, everyday activities burn the following calories in 30 minutes:

Raking leaves = 147

Gardening or weeding = 153

Vacuuming = 119

Playing with kids = 136

Mowing the lawn = 205

In addition to burning calories, the cumulative effects of these and other suggested *Commit to Fit!* activities can reduce your risk of heart disease, high blood pressure, diabetes and even depression.

The *Commit to Fit!* challenge is not about becoming a marathon runner or yoga guru. It’s about making conscious daily choices with your health in mind. This includes active living, eating fruits and vegetables, drinking plenty of water and getting eight hours of sleep each night.

Rally your friends and family to take this simple challenge, then go to [commit2fit.com](http://commit2fit.com) to learn more and to track your own personal fitness progress.

It will be the best simple thing you do today.
