

Baby Those Baby Teeth

Healthy Teeth. Healthy Child.

DENTIST REFERRAL GUIDE FOR INFANTS & TODDLERS

Use this guide to make an appointment for your infant or toddler to see a local dentist and establish a dental home. Ask your own primary dentist if they would accept your child as a patient and, if not, contact one of the Genesee County dentists currently accepting infants and toddlers, listed on the back page. Use the map to find one near you!

Genesee County Dentists Accepting Infants and Toddlers

The numbers on the map match the numbers for each dental office listed on the back page.

Why Dental Care for Baby Teeth?

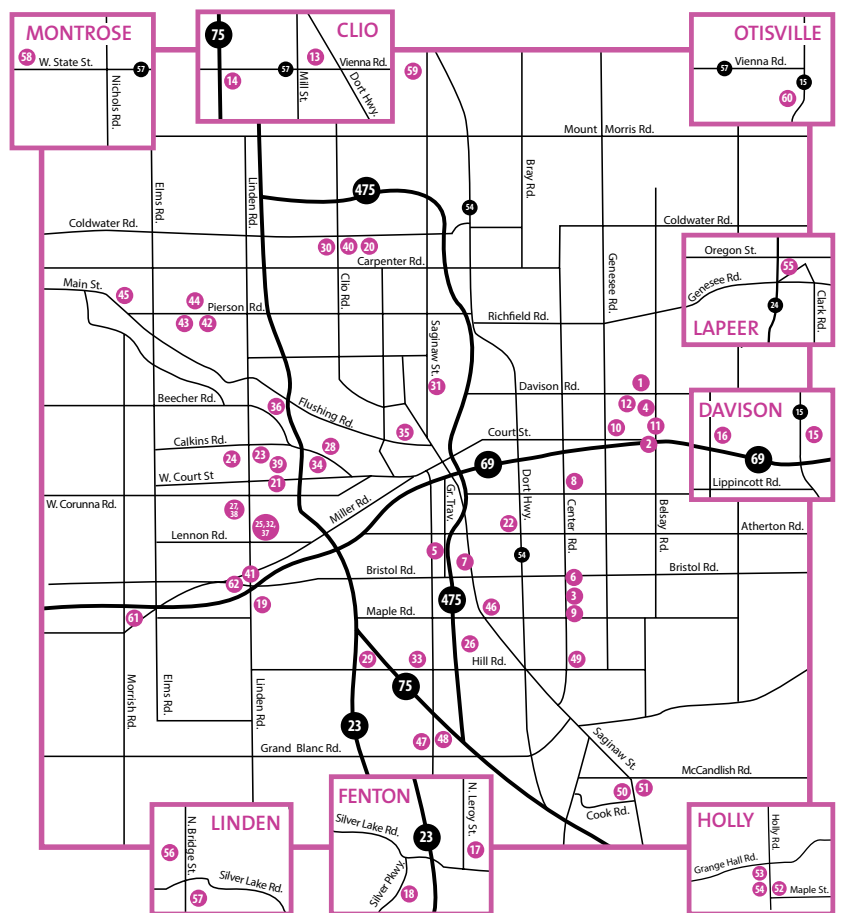

- Healthy baby teeth help improve your child's health related to chewing, speaking, preventing infection, and spacing of permanent teeth
- Baby teeth can get tooth decay from their first appearance
- Pain from tooth decay can affect a child's behavior and ability to eat, sleep, and learn

Why a Dental Home?

- For regular visits to prevent tooth decay
- To have a dentist to call for questions or concerns, emergencies, and injuries to your child's mouth or teeth.

When Should Infants and Toddlers See a Dentist?

- When the first tooth appears or at age one to have a well-baby checkup for baby teeth and gums
- Every 3-6 months for a check-up

This information is brought to you by the Greater Flint Health Coalition Children's Oral Health Task Force in cooperation with the Genesee District Dental Society.
