

DO YOU HAVE A MEDICAL HOME?

Having a medical home or primary care provider is especially important during the COVID-19 pandemic. A medical home is a connection to complete medical care that can include sick visits, well visits, testing or prevention services such as immunizations. Medical homes can also give you advice about when you should see your doctor for an illness or go directly to an emergency room.

NEED HELP CONNECTING TO A MEDICAL HOME?

The following local resources can help you and your family stay healthier at low to no cost.

Genesee Community Health Access Program (CHAP) assists children and adults in Flint and Genesee County who are covered by Medicaid or are uninsured to connect them to a medical home and remove barriers to care. Contact Genesee CHAP at **810.953.2427** or text 810.853.6808.

Genesee Health Plan provides basic health coverage and access to other health resources. Call **810.232.7740** to get the assistance you need.

Genesee Health System provides behavioral and physical health services to Genesee County residents. Call **810.257.3705** for assistance.

Hamilton Community Health Network is a Federally Qualified Health Center that provides medical, dental, vision and an array of specialty services. Call **810.406.4246** to learn more.

Greater Flint Health Coalition provides free health insurance enrollment assistance, including Medicaid enrollment support. To connect with an outreach and enrollment coordinator and get your questions answered, call **810.853.6458** or text 810.853.6458.
